## Summary

Mobile App Developer with 2 years of professional experience in designing, developing, and deploying mobile applications using React Native. Skilled in creating user-friendly interfaces and efficiently integrating APIs, ensuring top-quality app performance. Experienced in delivering offline-first architectures and establishing CI/CD pipelines, enabling seamless deployments and reliable mobile experiences. Successfully managed several projects from concept to completion, driven by Agile methodologies.

## Skills

**Technical:** React Native, Redux, Context API, Zustand, JavaScript (ES6+), TypeScript, C++, Firebase, Supabase, SQLite, Realm, AsyncStorage, REST, GraphQL, API Integration, Google Maps SDK, Razorpay, Deep Linking, Push Notifications, Jest, Git, JIRA, Agile Scrum, CI/CD, App Deployment (Play Store & App Store), VS Code, XCode, Android Studio

**Soft Skills:** Team Work, Problem-Solving, Communication, Adaptability, Time Management, Attention to Detail

## Experience

**Associate Engineer – Successive Digital**, Noida, India

Apr 2024 – Present

- Developed and deployed 3+ cross-platform mobile applications (Android & iOS) using React Native, achieving 100% compliance on Play Store & App Store with zero rejections.
- Integrated Deeplinking, Razorpay payments, push notifications, and Google Maps SDK, boosting feature adoption by 35%.
- Executed offline-first architectures with Realm DB and optimized state management, improving performance by 30% and ensuring uninterrupted user experience.
- Collaborated in Agile Scrum sprints, peer-reviewed code, applied Jest testing, and systematized CI/CD pipelines, reducing bugs by 20% and cutting release time by 25%.

**Trainee Engineer – Successive Digital**, Noida, India

Oct 2023 – Apr 2024

- Completed 10+ React Native training modules with mentor guidance and support.
- Built and debugged mobile applications, gaining hands-on experience in SDK integration and deployment on Stores.

## Projects

**Nexo** [Demo]

- Built a cross-platform kiosk management app for mobile & tablet using React Native and Realm DB with offline-first support.
- Developed real-time sales tracking, attendance monitoring, and inventory management of 10,000+ items with validation, invoice uploads, and mechanized sales report generation.
- Engineered data synchronization workflows, achieving near 100% accuracy and enhancing operational productivity.

**SAIL GRAHAK SAMPARK (CRM for Steel Authority of India)** [Google Play]

- Delivered a CRM app used by 10,000+ executives, streamlining data management, meetings, and product catalogs.
- Built a centralized database with real-time logging and interaction history, boosting customer engagement.
- Integrated Google Maps SDK for nearest-representative assignment, cutting response times by 25%.
- Enabled digital reporting and automated reminders, eliminating manual workflows and saving 10+ hours weekly per executive.

**EasyGuest** [App Store]

- Developed and deployed the EasyGuest visitor management app using React Native, Firebase, and OpenCV-based face detection, reducing manual tracking by 70%.
- Applied secure check-in/out with iCards and enabled real-time notifications, increasing visitor throughput by 50%.
- Created responsive UI/UX with animations, ensuring seamless performance across tablets and smartphones.
- Streamlined feedback system and admin portal for centralized monitoring, analytics, and visitor management.

## Education

**Bachelor of Technology in Computer Science and Engineering**

Maharaja Surajmal Institute of Technology (GGSIPU), New Delhi — CGPA: 9.42

**Senior Secondary (12th), Science**

Rajkiya Pratibha Vikas Vidyalaya, New Delhi — 92%
